

Register now for your
Prostate Cancer Test

2nd Feb. 2025

Calling all men over 40

Prostate Cancer screening day

Join us for a PSA Blood Screening Event on the **2nd Feb. 2025**
Horsell Village Hall
117 High St. Horsell,
Woking GU21 4SS
9:30am - 3:30pm

Why get screened for prostate cancer?

- Prostate cancer is the most common cancer among men in the UK.
- 1 in 8 men will be diagnosed with prostate cancer in their lifetime.
- Early detection can save lives. When detected early, prostate cancer is highly treatable.

Secure your spot today!

You will need to book in advance by registering online. Make a start by visiting www.rotarywoking.co.uk/psa-test/ and follow the link to the testing site where you will find simple instructions to book your time on the 2nd February.

Alternatively, scan the QR code below.

A simple test can be the first step towards a healthier future. Take action now and be a part of the fight against prostate cancer.

See you there!

What is a PSA blood test?

- **Simple and Quick:** A minimally invasive blood test that takes only a few minutes.
- **Accurate:** Measures the level of prostate-specific antigen (PSA) in your blood, which can indicate the presence of prostate cancer.

Benefits of attending this event

- **Peace of Mind:** Know your PSA levels and take charge of your health.
- **Expert Guidance:** On-site healthcare professionals will be available to answer your questions and provide information.
- **Community Spirit:** Join others in raising awareness and taking proactive steps against prostate cancer.

Who should attend?

- Men aged 40 and above.
- Men with a family history of prostate cancer.
